## January Wellness Challenge

### *Establishing Soul-Restoring Rhythms*

In music, rhythm is the pattern of sounds and silences in time. It involves the arrangement of notes, beats, and accents to create a sense of movement and flow. As we start 2024, our focus is on establishing a rhythm that restores our souls, minds and bodies for the purpose of wholeness and wellness that spans generation to generation. In January, focus on the daily, weekly, monthly, yearly, and generational rhythms that promote wellness. First, identify and evaluate your present rhythms. Then share these with another person and invite them to do the same.
